

Hands-on Evening Workshops in DNA Technology

ABOUT THE COURSE

This **hands-on intensive** course will allow students hands-on experience in applying the fundamental methods used in molecular biology, cloning and analysis of DNA.

WHO CAN BENEFIT ?

Biologists and research managers seeking an applied introduction to the area of DNA technology.

Laboratory supply and diagnostics professionals seeking first-hand experience in the area of DNA technology.

Environmental, Agricultural, and Biology / Biochemistry professionals wishing to expand their skills and experience into the important area of DNA technology.

Laboratory technologists / research assistants wishing to update their skills to include fundamental DNA techniques.

COURSE CONTENT

- Transformation / expression of foreign proteins
- DNA and restriction enzymes
- PCR technology
- DNA sequencing
- DNA vectors for cloning and expression
- DNA purification and extraction
- Agarose gel electrophoresis

ABOUT THE INSTRUCTOR

Dr. Dominic Bergeron, Professor and Coordinator of Biotechnology, La Cité Collégiale. Dr. Bergeron is the coordinator of and professor in the applied Biotechnology program at La Cité Collégiale. He has taught at the University of Ottawa, and performed industry-sponsored research in addition to authoring four books in the area of biochemistry.
